DEPARTMENT OF BIOLOGICAL SCIENCES

June 12, 1978

Ms. Iwona Stroynowski
Department of Genetics

Dear Ms. Stroynowski:

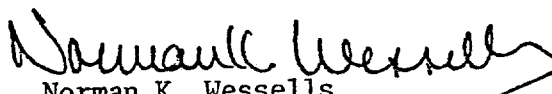

I am pleased to inform you that you have been awarded a Frances Lou Kallman Award for excellence in science and graduate study. Our selection committee was very impressed with your credentials and the high esteem with which you are held by faculty who know you and your work.

The award you have won is in memory of Frances Lou Kallman, a cell biologist and electron microscopist whose blossoming career was cut short by an untimely fatal illness. Pat Kallman set the highest standards for herself in performing science and teaching and was an example to those around her. It is fitting, indeed, that you should be chosen for this award, since you possess the same attributes.

You may expect to receive in the near future a check for \$150 from Stanford University.

Please accept my personal congratulations. Our faculty wishes you well, as you embark upon your scientific career.

Sincerely,

Norman K. Wessells
Chairman, Biological Sciences
